

```
#include <stdio.h>
#include <stdlib.h>

int main()
{
    char n[50];
    printf("Please enter domestic animals");
    scanf("%s",&n);

    char x[30];
    printf("Please enter wild animals");
    scanf("%s",&x);

    char k[80]="n+x";
    printf("The group of N and x animals is %s,%s",n,x);

    return 0;
}
```
